

HOSPITAL WARD

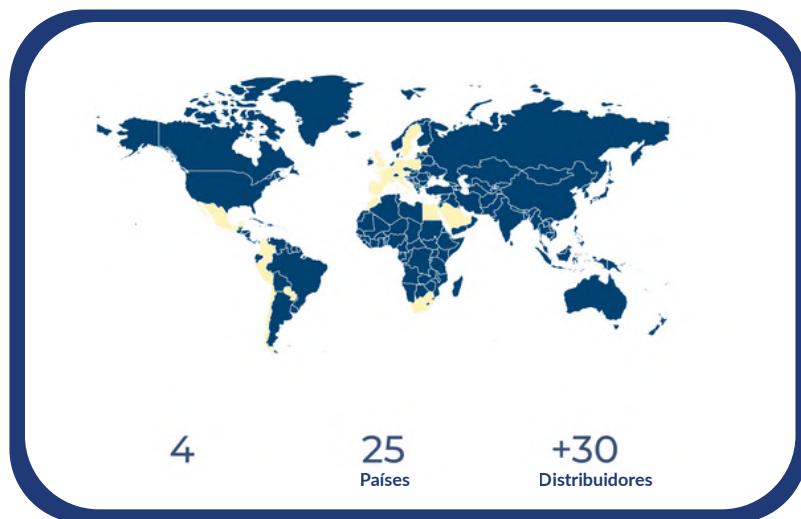

TROLLEYS WITH DRAWERS, SHUTTER AND DOOR

la-pastilla

CATALOGUE

We are a company that markets, designs, and manufactures hospital and geriatric furniture.

Throughout our history, we have developed various products such as hospital trolleys and logistics systems to supply public and private hospitals throughout the Iberian Peninsula.

Thanks to the work of our sales team and the trust of our distributors and customers,

our products are already present in more than 15 countries around the world: Portugal, France, Italy, Germany, Belgium, Sweden, Chile, Paraguay, Mexico, Peru, among others. Visit our website:

www.lapastilla.com

“25 years of experience manufacturing with trust, commitment and passion”

Manufacturers

of clinical, hospital and geriatric trolleys

Own manufacturing

We have our own factory in Spain, which allows us to control and optimise the quality of our service from start to finish, thus guaranteeing excellence, customisation and fast delivery.

Project customisation

We offer a service to tailor the needs of our clients and adapt each product to their projects. All this with a high degree of specialisation in clinics, geriatric centres and hospitals.

Speed

A key factor that sets us apart is our fast management. LaPastilla guarantees speed in response and a short delivery time for the product (4 to 7 working days). This is possible thanks to our large team of expert professionals in the sector whose main objective is the satisfaction of healthcare and geriatric staff.

**Novimed®
Series Trolleys**

Technical features

1. Upper surface

ABS lid/surface with 3 rounded edges to prevent liquids and objects from falling when the trolley is moving.

2. Materials

Internal galvanised steel structure, anodised aluminium profiles and fibraplast walls.

3. Drawers

ABS polymer drawers with telescopic runners, 110% extraction.

4. Compactmel base

Compact and uniform design that guarantees stability.

5. Label holder

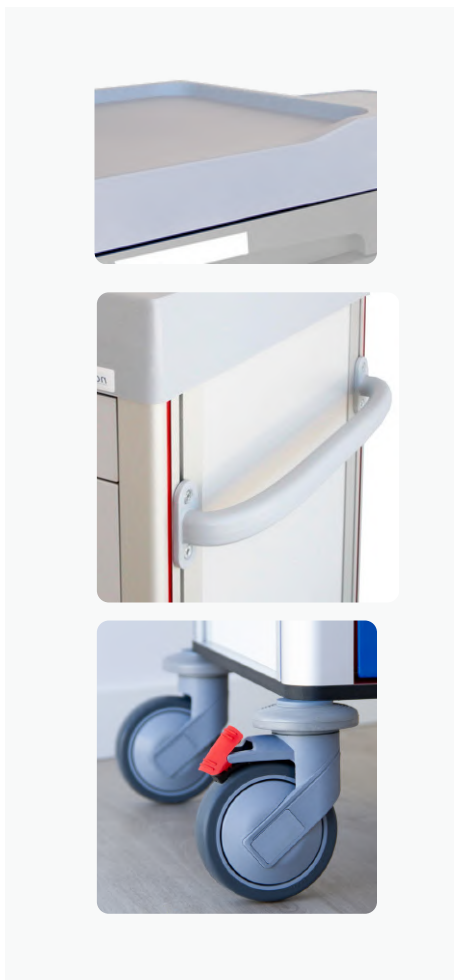

Interchangeable label holder for identification.

6. Bumpers

Rubber bumpers on all 4 wheels.

7. Wheels

4 wheels with double bearing, 2 with anti-thread brake, Ø125 mm, smooth and silent running.

Details

The Novimed® range trolley is versatile, lightweight, resistant and easy to clean and disinfect. The surfaces are smooth with rounded edges, which prevents bacteria from settling. Its most important feature is the variety of possible configurations: drawer sizes (ISO 600x400), colours and side or upper accessories adjustable in height and position thanks to their installation on the DIN bar (no tools required). It is latex-free, highly resistant to impacts, vibrations and scuffs, even at low temperatures.

Work surface

- Made of resistant ABS.
- Smooth and fully removable surface for easy disinfection.
- High resistance to chemical products. Does not degrade.
- Rounded edges.
- Three edges that prevent liquids from falling.
- Lid dimensions: 625 x 460 mm.
- Pull-out side table (with possibility of surface without table).
- Table dimensions: 370 x 330 mm.
- Table capacity: 3 kg.

Metal runners

- Made of high-resistance metal.
- They contain bearings for easier and faster sliding.
- They enhance the trolley's versatility and customisation.
- Adapted to the new LaPastilla® cassettes with different heights.

Novimed® Drawers

- ISO dimensions: 600 x 400 x H mm (75, 155, 235).
- Manufactured in a single piece of ABS.
- Completely smooth interior with no edges.
- Steel telescopic runners with retention system.
- Full opening (110%).
- Silent self-closing system (soft-close).
- Interchangeable label holder for identification.

The drawers are available in different colours and sizes, according to the International Organization for Standardization, ISO 3394.

**Convimed®
Series Trolleys
with drawers**

Technical specifications of the Convimed® with drawers

<p>1. Top surface ABS lid/work surface with 3 rounded edges to prevent liquids and objects from falling when the trolley is in motion.</p>	<p>2. Materials Internal structure made of galvanised steel and metal. Internal walls made of phenolic material. Anodised aluminium profiles.</p>	<p>3. Drawers ABS polymer drawers with telescopic runners, 110% extraction. Available in 3 heights: 50 / 100 / 200 mm.</p>
<p>4. Compacmel base Compact and uniform design that guarantees stability.</p>	<p>5. Bumpers Rubber bumpers on all 4 castors.</p>	<p>6. Castors 4 double-bearing castors, 2 with anti-thread brake, Ø125 mm, smooth and silent bearing.</p>

Details

- Robust and highly resistant structure
- Lightweight for easy manoeuvrability
- Resistant to cleaning and disinfection chemicals
- Ergonomic design
- Highly configurable and customisable: drawer sizes, colours, lateral and upper accessories adjustable in height and position.
- Interchangeable internal modular ISO 6040 content
- Smooth, non-porous surfaces with rounded edges to prevent bacteria accumulation. Latex-free
- Resistant to humidity, scuffing and vibration

Work surface

- Manufactured in ABS
- Moulded top with 3 raised edges
- High resistance to chemical products
- Rounded edges
- Completely smooth for easy cleaning

Castors

- 4 double-bearing castors Ø125 mm
- Anti-thread
- 360° rotation with smooth and silent bearing
- 2 castors with front brake
- Bumper protectors on all 4 castors

Convimed® Drawers

- ISO dimensions: 600 x 400 x H mm (50, 100, 200).
- Manufactured with high-resistance polyethylene (HDPE) front with injected colour.
- Interior suitable for ISO 600 x 400 interchangeable trays.
- Metal telescopic runners with retention system.
- Full extension (110%).
- Silent self-closing system (soft-close).
- Load capacity per drawer: 3 kg.

Drawers are available in different colours and sizes, according to the International Organization for Standardization, ISO 3394.

**Convimed®
Series Trolleys
with Roller
Shutter / Door**

Technical features of the Convimed® with roller shutter

1. Top surface

ABS top/surface with 3 rounded edges to prevent liquids and objects from falling when the trolley is in motion.

2. Roller shutter

Flame-retardant PVC roller shutter with side rolling opening and universal key lock.

3. Materials

Internal structure in galvanised steel, anodised aluminium profiles, side and rear panels in phenolic material.

4. Rails

Rails for storing accessories with ISO 600 x 400 mm dimensions.

5. Compacmel base

Compact and uniform design that guarantees stability.

6. Bumpers

Rubber bumpers on the 4 castors.

7. Castors

4 double-bearing castors, 2 with anti-thread brake, Ø125 mm, smooth and silent running.

Possibility to add a folding door

Work surface

- Top surface with 3 raised edges.
- Made of ABS plastic.
- Fully removable.
- High resistance to chemical and disinfectant agents commonly used in hospitals. Does not deteriorate.
- Smooth, pore-free surface for easy cleaning.
- Usable work area: 770 x 480 mm.

Roller shutter door / Folding door

- Opaque roller shutter, completely prevents light from passing through.
 - Made of PVC.
 - Side rolling opening.
 - Aluminium handle.
 - Lock with two included keys.
-
- Opaque folding door.
 - Smooth opening with metal handles.
 - Magnetic retention.
 - Doors with hinges.
 - Lock with two included keys.

Castors

- 4 double-bearing castors of Ø125 mm.
- Anti-thread.
- 360° swivel with smooth and silent bearing.
- 2 front castors with brake.
- Bumper protectors on all 4 castors.

Dimensions

The dimensions of the trolley with folding door are equivalent to those of the trolley with roller shutter.

Convimed®

Drawer Trolleys

Technical features

<p>1. Top surface ABS lid/surface with 3 rounded edges to prevent liquids and objects from falling while the trolley is in motion.</p>	<p>2. Materials Internal structure made of galvanized steel and metal. Internal walls made of phenolic material. Anodised aluminium profiles.</p>	<p>3. Drawers ABS polymer drawers with telescopic guides, 110% extension. Available in 3 heights: 50 / 100 / 200 mm.</p>
<p>4. Compactmel base Compact and uniform design that guarantees stability.</p>	<p>5. Bumpers ubber bumpers on all 4 wheels.</p>	<p>6. Wheels 4 double-bearing wheels, 2 with anti-thread brake, Ø125 mm, smooth and silent rolling.</p>

Details

- Robust and highly resistant structure.
- Lightweight for easy manoeuvrability.
- Resistant to cleaning and disinfecting chemicals.
- Ergonomic design.
- Highly configurable and customisable: drawer sizes, colours, lateral and top accessories adjustable in height and position.
- Interchangeable modular internal content ISO 4030.
- Smooth, non-porous surfaces with rounded edges to prevent bacterial settlement. Latex-free.
- Resistant to moisture, abrasions, and vibrations.

Wheels

- 4 double-bearing wheels, Ø125 mm.
- Anti-thread.
- 360° rotation with smooth and silent bearings.
- 2 front wheels with brakes.
- Bumper protectors on all 4 wheels.

Work surface

- Made of ABS.
- Fully removable.
- Top surface moulded with 3 edges.
- Highly resistant to chemicals.
- Rounded edges.
- Completely smooth for easy cleaning.

Mini Convimed® Drawers

- ISO dimensions: 600 x 400 x H mm (50, 100, 200).
- Manufactured with high-resistance polyethylene (HDPE) front with injected colour.
- Interior compatible with interchangeable ISO 600 x 400 trays.
- Metal telescopic guides with retention system.
- Full extension (110%).
- Silent self-closing system (soft-close).
- Load capacity per drawer: 3 kg.

Drawers are available in different colours and sizes, according to ISO 3394.
